SUMMARY

Skilled Product Designer specializing in user experience and user interface design with a certificate from The George Washington University's UX/UI Bootcamp. Dedicated worker that excels in attention to detail, problem-solving, creativity, empathy, collaboration, and willingness to learn.

WORK EXPERIENCE

Airspace (Nov 2020 – Dec 2022)

Product Designer

- Conducted user research via interviews and observations to better understand the user experience and develop the most effective user interface solutions.
- Created complex user flows and intuitive UI designs for desktop platforms using Figma or Sketch.
- Built high-fidelity prototypes, led usability tests with real users, analyzed results, and shared insights.
- Collaborated closely with product managers, developers, other designers, and stakeholders.
- Clearly communicated design solutions with stakeholders and passed off assets to developers with great attention to detail.
- Validated new features through observations of user behavior and reviews of analytical data.

Auxilium Technologies (Aug 2020 – Oct 2020)

UX/UI Designer

- Created UI designs, user personas, affinity diagrams, site maps, wireframes, and prototypes.
- Conducted competitive analysis, design critiques, heuristic evaluations, and usability tests to better understand the needs of the users and business.
- Collaborated with project managers, designers, developers, and clients from multiple industries.

Greenbelt Travel Services (Nov 2019 – Dec 2019)

Web Designer

- Redesigned travel agency website using Wix by restructuring site content and balancing the needs of the business with the user.
